

Important Announcement: Decommissioning of Wood Burning Fireplaces

Dear Valued Guests,

In light of our unique location within a region that has an elevated risk of wildfires, we are undertaking proactive measures to ensure the safety and well-being of our guests, owners and staff members. As a result, we have made the difficult decision to decommission the wood burning fireplaces at The Gant.

We deeply appreciate the longstanding tradition and significance of these fireplaces in enhancing your experience with us. However, in our commitment to ensuring the utmost safety for all, we must prioritize the mitigation of potential risks associated with their operation.

Effective immediately, our wood burning fireplaces will be taken out of operation. While we understand the inconvenience this may cause, particularly during the upcoming winter season, please accept our sincere apologies for any disruption to your stay.

We are actively exploring alternative fireplace options, specifically electric models, which not only prioritize your comfort but also offer a more sustainable and environmentally responsible choice. Rest assured, we are committed to maintaining the high standards of experience you have come to expect from The Gant.

As we progress through this transition, we will keep you informed of the replacement process and any developments regarding the new fireplace options. Your understanding and patience are sincerely valued and appreciated.

Should you have any questions or concerns, please do not hesitate to reach out to our team. We extend our heartfelt gratitude for your continued support and patronage.

Warm regards,

Donnie Lee
General Manager
